1. Applicant's election without traverse of Group I, claims 1-22 in the reply filed on December 1, 2005 is acknowledged.

Applicant should cancel the non-elected claims 23-30 in response to this action to expedite prosecution.

2. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 12, "non-curing" should be changed to --non-cured-- to eliminate potential confusion that the part does not cure, for clearly it does. The same for claim 17, line 12. In claims 1 and 17, line 13, --a non-cured part of-- should be inserted after "and". Claim 17, line 9, --light-- should be inserted after "second" for proper antecedent basis.

3. Claims 1-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

4. Claims 1-22 would be allowed pending an obviation of the 112 issues because the prior art does not disclose, teach or suggest the overall aspects of forming a brightness enhancement film by providing first and second substrates with liquid crystal macromolecules thereon, curing a part of the liquid crystal on each substrate to form first and second light transmitting layers, combining the substrates so that the uncured portions of the liquid crystal macromolecules are joined and located between the first and second light transmitting layers to form a third liquid crystal region and curing this to form a third light transmitting layer.
